### **OBJECTIVES**

I am seeking an internship opportunity in the technology field to apply my knowledge in front-end development, with proficiency in HTML, CSS, Bootstrap, ASP.NET, and Git, as well as to continue expanding my software development skills. I am fluent in English (native from the USA), with solid experience in customer service and effective communication.

I am currently studying Software Engineering and Systems Analysis and Development, and I am committed to continuous learning. I have strong people management skills, enjoy working in a team, and am motivated to contribute solutions that add value to projects and support team growth.

### **EDUCATION**
